

A paragraph with a floating textbox:

This text content should be wrapping the textbox. We repeat it quite a few times so you can see the effect. This text content should be wrapping the textbox. We repeat it quite a few times so you can see the effect. This text content should be wrapping the textbox. We repeat it quite a few times so you can see the effect.

And an extra paragraph that should also be wrapping the textbox in order to illustrate how the floating of textboxes do work.

First paragraph within the textbox.

- List item 1
- List item 2

Last paragraph within the textbox.
