

PDF conversion test

This is just a random example of how to convert a Word document in .docx format into a PDF with certain custom options like password protection, initial zoom, etcetera.

Let us write a list:

1. First
2. Second
 - a. Subitem
3. Third

A nice table:

Conversion table

Field	Type	Index	Predetermined value	Null
id	int(11)	Primary key	Auto-increment	No
source	varchar(256)			No
target	varchar(256)			No
options	varchar(256)			Yes
token	varchar(64)	Index: token_id	0	No
created	TIMESTAMP		CURRENT_TIMESTAMP	No

And a 3D chart:
